

September 2026 EDITION

Hello [First Name] !

Welcome to our monthly newsletter, your go-to source for everything related to Aratas America LLC! We'll be discussing our latest in technology, events, and more! Whether you're looking to stay ahead of the curve or simply curious about what's new, we've got you covered. Let's dive in and discover the exciting world of electronic components together!

If you have any feedback, please email us!
Sincerely,
The Team @ Aratas America LLC

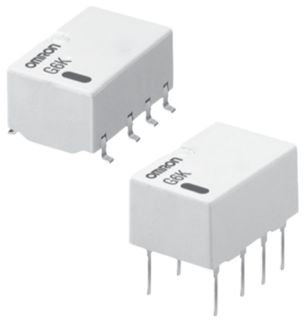

Featured **Products**

G3VH

Designed for automated test equipment (ATE) and high-voltage measurement systems, the G3VH Series combines SiC MOSFET technology with compact solid-state relay packaging to support high-voltage, high-speed switching for modern power semiconductor applications.

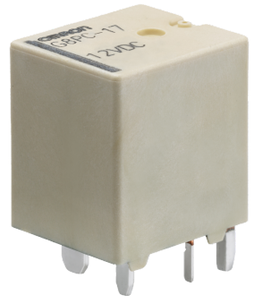

Learn More

G6K-T1

Our G6K series surface-mount relays are ideal for a wide range of applications, including test and measurement and factory automation, and are now available with either 1A switching up to 125°C or 2A switching up to 85°C.

Learn More

G8PC

The G8PC-17 is compatible with 3-phase 22 kW on board chargers, making it ideal for EV and small mobility applications (up to AC277V, 32A). It features an SPDT contact structure, ensuring reliable isolation between circuits. Additionally, the G8PC series is flow soldering compliant, enabling faster, more reliable automated assembly.

Aratas **Events**

Overcoming the Challenges of High-Frequency Design

As high-frequency equipment demands evolve, staying ahead of design and reliability challenges is critical. Watch this on-demand session for an exclusive deep dive into the latest innovations shaping the high-Frequency equipment market.

In this session, experts in relay and component solutions from Aratas will explore current industry trends, navigate pressing challenges, and showcase advanced solutions designed to elevate your testing capabilities.

Watch On-Demand
